

GEMINI

A modern, versatile examination and procedure chair

Designed for urodynamics, urogynecology, urology, and OB/GYN practices

State-of-the-art technology and exceptional design

arco-matic® 300 M

An advanced all-in-one examination and procedure chair built to last for a range of procedures

Thick upholstery designed for enhanced durability and maximum comfort

2 innovative foot/leg support options with integrated handles

Lower access height (21.6") for physically challenged patients mitigates the risk of injury

Large cut-out for access, ideal for seated uroflows

Adjustment and memory functions activated by hand and foot control

Built to support up to 550 lbs, ensuring comfort and safety for all patients

✓ Easily adjustable

✓ Easy to use

✓ Ergonomic

✓ Strong and safe

Horizontal position

Adjust for an ultrasound examination or into shock position in one second with the pull-out leg plate.

Lithotomy positioning

Standard and high lithotomy possible through pelvic tilt and different leg systems.

Gynecological cut-out and side rails

The 6 1/8" cut-out provides optimal access. Attach a light source, stirrups, or other accessory to the side rails.

Memory positions and pelvic elevation

Change between 4 positions automatically with a double click, including high lithotomy for easier examination.

Customize the chair for the needs of your practice

Select your color:

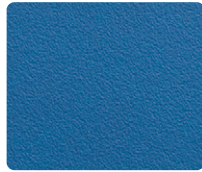

GOLD YELLOW
