

GEMINI

A purpose-built examination and procedure chair

Uniquely designed for video urodynamics
with full fluoroscopic imaging

Keeps your video urodynamics procedures running smoothly

TryTable

A fluoroscopy examination and procedure chair built to meet the needs of urodynamics practices

✔ Easily adjustable

✔ Comfortable

✔ Functional

✔ Easy to clean

Horizontal position

Provides a low access height of 19.3" and a quick release button for emergency resuscitation.

Memory positions

Easily switch between 3 positions automatically with the push of a button or tap on the foot pedal.

Trendelenburg position

Automatically adjust with the touch of a button to enhance visualization of the bladder, urethra, and other pelvic structures.

Optimal working area for video urodynamics

X-rays can easily be performed on a patient with a working area of 9.8" W by 22.8" L; c-arm can be positioned above or below the table.

Customize the chair for the needs of your practice
